REMOVE DIFFERENTIAL

DEMOCRATS AND INSURGENT RE-
PUBLICANS OVERRULE THE
CHAIR.

RECIPROCITY BILL PASSES

By a Vote of 247 to 52 the Cuban Relief Measure Goes Through the House, but Not Until It Has Been Materially Amended—Attempts to Make Further Tariff Reductions Are Not Successful.

Washington, April 19.—The Democrats and the Republican insurgents rode roughshod over the house leaders when the voting began on the Cuban reciprocity bill. They overthrew the ruling of the chair in committee of the whole on the question of the germaneness of an amendment to remove the differential from refined sugar during the existence of the reciprocity agreement provided for in the bill. The vote to overrule the decision of the chair, made by Mr. Sherman of New York, was 171 to 130, Republicans to the number of 37 joining with a solid Democratic vote to accomplish this result.

Having won this preliminary victory the amendment was adopted in committee, 164 to 111, and later in the house by a still larger majority, 199 to 105. On this occasion 64 Republicans voted with the Democrats for the amendment. The bill then was passed by an overwhelming majority, 247 to 52.

An analysis of the vote shows that 124 Republicans and 123 Democrats voted for the amended bill, and 42 Republicans and 10 Democrats against it. Mr. Grosvenor of Ohio was one of those who voted against the bill. The voting on the bill was the culmination of a long struggle, which began almost with the opening of this session of congress, and after two weeks of continuous debate during which much bitterness was aroused. The day's debate was of an exceedingly lively character, the feature being echoes of the Democratic caucus. To that caucus the defeat of the Republican leaders who sought to pass the bill without amendment is attributable. Previous to the holding of the caucus the Democrats were very much divided and the opposition of the Republican beet sugar men showed signs of disintegrating. When it became apparent that the Democrats would act together the beet sugar men decided at a meeting attended by 32 of them to

Take the Bit in Their Teeth and overrule the chair. As soon as this combination was effected the Republican leaders realized that they would be defeated so far as the removal of the differential was concerned, and Mr. Payne, the Republican leader, contented himself with warning his beet sugar colleagues that in removing the differential they were taking off a bit of protection placed in the Dingley bill especially for the benefit of the beet sugar producers. The Democrats attempted to follow up their advantage when the differential amendment was adopted by offering the Babcock bill and other amendments to reduce the Dingley schedules, but on these amendments the Republicans declined to stand with them and the Democrats did not press them vigorously. One of the surprises of the session was the attempt of Mr. Roberts, a Massachusetts Republican, to take the duty off hides. He offered two amendments and appealed once from the decision of the chair, but was voted down each time.

The bill as passed authorizes the president as soon as may be after the establishment of an independent government in Cuba and the enactment by said government of immigration, exclusion and contract labor laws as restrictive as those of the United States, to negotiate a reciprocity trade agreement with Cuba, by which, in return for equivalent concessions, the United States will grant a reduction of 20 per cent from the Dingley rates on goods coming into the United States from Cuba, such agreement to continue until Dec. 1, 1903. During the existence of such agreement the duty on refined sugars and all sugars above No. 16 Dutch standard is to be 1.825 cents per pound.

PARDON FOR AMERICANS.

Cuban Legislators Want United States to Grant General Amnesty.

Havana, April 19.—A number of Cuban senators and representatives-elect have sent a telegram to President-elect Estrada Palma at Gibara, petitioning him to ask the United States to pardon all Americans now under arrest in Cuba. Rathbone's case seems to have stirred Cuban sentiment strongly and the movement to act for a general pardon is prompted by this sentiment.

A majority of the newspapers in Havana comment adversely on the order recently issued by Governor General Wood making it impossible, so the papers declare, to remove members of the present judiciary from office.

Washington, April 19.—Generals Bird, Snyder and Ahman, nominated Thursday as brigadier generals, will be retired in a few days after their confirmation in order to make vacancies for three more veterans of the Civil war who are near the age of retirement.

CONDITIONS IN HAWAII.

Governor Dole Before the House Committee on Territories.

Washington, April 19.—Governor Dole of Hawaii was before the house committee on territories and gave an extended review of conditions on the islands. The governor said there were some things in the organic law which the Hawaiians would have been glad to have different. He said he had no purpose to criticize, but, answering direct questions, said the franchise might have been properly limited further than to Asiatics. There also was the land question, concerning which he said there was vagueness regarding the provision allowing corporations to hold 1,000 acres. Whether this land was to be held in fee simple or simply by lease or otherwise was not seemingly understood by the Hawaiian people. He explained also the confusion that might arise from the election of senators.

Chairman Knox said that this senatorial condition was remedied by a bill about to be reported. Governor Dole said for the present the island industries could not be carried on entirely by white labor, the Chinese and Japanese being so numerous employed in the rice and other industries that an immediate change to white labor would not be practical. The experience in using Porto Rican labor had been disappointing.

AFFAIRS ON THE ISTHMUS.

Believed That Commander McCrea Has Acted Wisely.

Washington, April 19.—The navy department is expecting a cable report from Commander McCrea of the Machias at Bocas del Toro. Pending the reception of the report the officials remain confident that Commander McCrea has acted wisely at Bocas, notwithstanding a complaint attributed to Governor Salazar of Panama. Assuming that the launches seized by the revolutionists were of American ownership, it is realized that there are still grave reasons why Commander McCrea should proceed cautiously before actually intervening. The property of the United Fruit company is entitled to the protection of the Colombian government, and, according to officials here, that government must formally declare its inability to afford such protection before our navy would be justified in taking active measures to recover the boats. One necessary step probably would be the temporary taking possession of the isthmus by the United States to ensure the full exercise of its authority. It is doubtful whether the Colombian government is ready to accept this condition.

HENRY MAY BE REGENT.

Said Wilhelmina's Mother Has Declined the Position.

Hetloo, Holland, April 19.—Queen Wilhelmina's fever has not abated, but the condition of the royal patient is said to be satisfactory. Her majesty's physicians are said to be less anxious, as it is believed the malady, which is now officially announced as typhoid fever, will not assume the ordinary malignant character. Queen Wilhelmina is visited by her doctors three times a day. She is supposed to have contracted her illness as the result of a chill.

The queen's mother will decline the regency because she wishes to nurse her daughter and the government will propose that Prince Henry become regent for six months.

ROSEBUD RESERVATION LANDS.

Four Hundred Thousand Acres to Be Opened to Settlement.

Omaha, April 19.—Definite information of the extent and location of that portion of the Rosebud Indian reservation to be opened for settlement the coming summer has been received by General Passenger Agent Buchanan of the Fremont, Elkhorn and Missouri Valley railroad. There are 400,000 acres in the part being opened, located in the southwest corner of the reservation and in Gregory county, S. D. It is oblong in shape and its long dimensions, north and south, are 26 miles, and from east to west 26 miles. The proclamation of the president fixing a date for the opening is expected in a short time.

Three Months' Railway Accidents.

Washington, April 19.—The interstate commerce commission has issued a bulletin showing for the three months ended Sept. 30, 1901, a grand total of 725 killed and 2,623 injured in train accidents of all kinds in the United States. The total number of train collisions was 1,247 and derailments 1,092, causing damage aggregating \$1,842,224 to cars, engines and roadways, exclusive of damage to merchandise.

STANDING ROCK LANDS.

Indians Denied an Injunction to Prevent Their Lease.

Washington, April 17.—Justice Hagner, in the District supreme court, dismissed the petition of Louis F. A. Primeau and others, representing a tribe of Sioux Indians of the Standing Rock reservation, for an injunction to restrain the secretary of the interior and the commissioner of Indian affairs from leasing certain portions of the unoccupied land of the reservation for grazing purposes. The petitioners represented that they had agreed to lease the land in question to certain cattlemen at the rate of \$1 for each head of cattle placed upon the range. When the terms of the lease came to the office of Indian commissioners the wording was so changed that it fixed the rating at \$1 per acre instead of \$1 per head. The Indians therefore sought relief through injunction. Justice Hagner held that the government had a right to lease the lands on the terms indicated.

COLOMBIA'S PROPOSAL

A REVISED PROTOCOL IS PRESENTED TO THE SECRETARY OF STATE.

WANTS TO RENT THE ROUTE

Declines to Relinquish Sovereignty

Over the Canal Site, but Is Willing to Accept \$500,000 Per Annum for Its Use—Policing of the Strip to Be Performed by Both American and Colombian Constables.

Washington, April 19.—The Colombian canal protocol which was delivered at the state department on April 1 and afterward recalled by Minister Concha for modification was again presented to Secretary Hay during the day. The proposal as to price is set out as follows:

One year after the exchange of ratifications of a treaty the United States shall pay Colombia the lump sum of \$7,000,000. This figure will represent 14 years' rental at \$500,000 a year. At the end of the 14-year period the price which the United States shall pay each year is to be fixed by mutual consent of the two countries. In case the parties cannot agree upon a sum it will be left to an arbitrator selected between the two governments. The protocol provides for the appointment of a joint commission representing Colombia and the United States, which will arrange and provide for all matters pertaining to the administration of affairs within the proposed canal belt, including the membership of the mixed tribunals for the administration of justice and other steps necessary to the joint occupation of the belt. It is realized that the building of a Panama canal would bring great numbers of persons of all sorts and conditions to the isthmus and for this reason it has been provided that the policing of the strip shall be performed by both American and Colombian constables, neither of these nationalities, it is held, being efficient without the aid of the other.

It is stated positively in an authoritative quarter that the modifications for which the protocol was recalled were in no sense a retraction of any of the proposals embodied in it at its former presentation, but were in the nature of explanations which make certain points clearer, but do not change their effect. The retention of Colombian sovereignty over the canal land is a point which has been consistently adhered to throughout the protocol and none of its provisions relinquish this sovereignty in any degree, it is stated. The protocol consists of 27 articles and represents an exhaustive study of more than a year. Viewed as a study and as a comprehensive presentation it is regarded very favorably at the state department.

Amends the Bankruptcy Law.

Washington, April 19.—The house committee on judiciary has directed a favorable report on the bill amending the bankruptcy law in a number of particulars. One of the most important amendments allows corporations to become voluntary bankrupts with the proviso that they shall not release the corporation officers and stockholders from individual liability under state or federal laws. Numerous changes are made in bankruptcy procedure and methods.

Minnesota Merger Case Transferred to United States Court.

St. Paul, April 19.—Judge Otis in the district court has granted the motion of defendant's attorneys in the case of the State of Minnesota against the Northern Securities company to transfer the case to the United States circuit court. The ground on which the motion for the removal of the case was based was that the suit was a question of constitutional construction, and as such was out of the jurisdiction of the state courts, and, further, that the persons and corporations involved in the case were from other states than Minnesota, and therefore the case could not be tried in the state courts.

The arguments of the defendants were submitted to Judge Otis early in the afternoon. He hastily reviewed them and granted the motion on the ground that the allegations set forth were true.

Attorney General Douglas said that the latest move did not at all hinder or embarrass the state and had no particular significance. When the case comes up in the circuit court the state will make a motion to remand to the district court, which will at once bring up the question of jurisdiction on the preliminaries and final merits of the case. As soon as the question of jurisdiction is settled the case will then proceed. General Douglas says it is not a matter of material difference in which court the case is tried. Whatever the decision on the question of jurisdiction the case will be tried in St. Paul and will reach the court of final resort without delay.

Acted in Self-Defense.

Muskogee, I. T., April 19.—W. H. Means, the Lexington, Mo., farmer who killed his niece, Miss Lydia Means, at Henrietta early Tuesday morning, was discharged at Wewoka. The evidence showed that he killed the woman in self-defense and after she had seriously stabbed him. Means was held, however, for incest.

PRONOUNCED OPPOSITION.

Senate Committee May Not Report Reciprocity Treaties Favorably.

Washington, April 19.—The senate committee on foreign relations considered the reciprocity treaties, but postponed action on them and agreed to vote next Wednesday. Senator Culom made a detailed statement before the committee showing the extent to which commerce between the United States and each of the countries involved would be affected by the treaties. While no vote was taken upon any test proposition the discussion developed the fact that the opposition to the more important of the treaties is so pronounced as to render it doubtful whether they will receive a favorable endorsement from the committee.

PHILIPPINE GOVERNMENT.

Senate Begins the Consideration of the Measure.

Washington, April 19.—At the day's session of the senate consideration was begun of the bill temporarily to provide a form of government for the Philippine islands. The measure was read and the committee amendments were agreed to tentatively, but no action on the bill was taken. Fifty-five private pension bills and a few other measures were passed.

Chinese Government Protests.

Washington, April 19.—The secretary of state has transmitted to the senate a communication from United States Minister Conger enclosing a protest from the Chinese government against the exclusion of Chinese from the Philippine islands.

Expect a Revelation.

Lamoni, Ia., April 19.—After the disposal of routine business in the Latter Day Saints conference, President Smith made a statement foreshadowing the presentation of a revelation. In accordance with a rule of the church adjournment was then taken to provide for consideration of the revelation by the separate quorums.

At the end of the 14-year period the price which the United States shall pay each year is to be fixed by mutual consent of the two countries. In case the parties cannot agree upon a sum it will be left to an arbitrator selected between the two governments. The protocol provides for the appointment of a joint commission representing Colombia and the United States, which will arrange and provide for all matters pertaining to the administration of affairs within the proposed canal belt, including the membership of the mixed tribunals for the administration of justice and other steps necessary to the joint occupation of the belt. It is realized that the building of a Panama canal would bring great numbers of persons of all sorts and conditions to the isthmus and for this reason it has been provided that the policing of the strip shall be performed by both American and Colombian constables, neither of these nationalities, it is held, being efficient without the aid of the other.

It is stated positively in an authoritative quarter that the modifications for which the protocol was recalled were in no sense a retraction of any of the proposals embodied in it at its former presentation, but were in the nature of explanations which make certain points clearer, but do not change their effect. The retention of Colombian sovereignty over the canal land is a point which has been consistently adhered to throughout the protocol and none of its provisions relinquish this sovereignty in any degree, it is stated. The protocol consists of 27 articles and represents an exhaustive study of more than a year. Viewed as a study and as a comprehensive presentation it is regarded very favorably at the state department.

Amends the Bankruptcy Law.

Washington, April 19.—The house committee on judiciary has directed a favorable report on the bill amending the bankruptcy law in a number of particulars. One of the most important amendments allows corporations to become voluntary bankrupts with the proviso that they shall not release the corporation officers and stockholders from individual liability under state or federal laws. Numerous changes are made in bankruptcy procedure and methods.

DULUTH whisky has an aggressive rival in the knock-out drops of Bemidji.

A FINAL agreement has been reached whereby the St. Louis fair does not open until 1904. The government will be unable to complete its buildings until that time.

THE HOME paper of J. F. Jacobson is supporting Sam. Iverson for state auditor which bears out the statement that "Jake" will not be a candidate for that position. He has also stated that he would not stand for a re-election to the legislature.

PAGE MORRIS' letter in which he stated that he would not be a candidate for re-election has developed more congressional timber in the city of Duluth than would be necessary for the entire state. And J. Adam Bede expects to outwit them all.

MANY of the progressive cities of Minnesota are already beginning arrangements for a proper celebration of Independence Day. If Brainerd intends to celebrate this year an early start towards perfecting an organization will go a long way toward making the occasion a success. Another advantage to be obtained is that of securing a good speaker before all are engaged and letting the surrounding country know that the Fourth of July in this city will be an event worth attending before plans are laid to go elsewhere. This is the year Brainerd should put forth an especial effort.

A very pretty party was given this afternoon by Mal. Clark at the residence of his parents, Mr. and Mrs. D. M. Clark, on Fifth street north. The guests numbered twelve and the event was in honor of his twelfth birthday. Out of door games such as base ball, rugby and target shooting were indulged in after which they partook of a hearty luncheon. The lads who were fortunate enough to be Master Mal's friends all report a very pleasant afternoon.

THE COMMITTEE ACTS.

A Parliamentary Move for Disposition of Amendment to the Nelson Bill Now Pending.

The following dispatch in the Minneapolis Journal relative to the amendment of the Nelson law now pending will be interesting to residents of northern Minnesota: "The house committee on Indian affairs today directed Representative Curtis to report the senate bill for the amendment of the Nelson act with directions to strike out all after the enacting clause and substitute therefor the house bill already favorably reported.

"This is simply a parliamentary move to put the bill in a good position. It will enable the house to consider a bill which has passed the senate and it will go to conference after it is disposed of in the house instead of being sent to the senate again.

"Senator Clapp and Representatives Morris, Curtis and Bowen had a conference before the committee met today. The Minnesotans wanted the bill amended so as to permit the sale of logs at public auction instead of by sealed proposals. The other men would not consent to that or any other changes. If the lumbermen want to continue the plan of the present act to continue the sale of pine on the stump it will have to be done in the house. Friends of the bill say it will not be done and that the provision for sale on bank will be adopted."

MACHINISTS ARE OUT ON A STRIKE

Some Eighty Men Walk Out this
Morning at Northern
Pacific Shops.

DISPOSITION OF "HANDY" MEN.

Men Claim that a Helper was
Given Position that Should
go to Machinist.

Considerable surprise was evidenced this morning, by those who are on the outside, to learn that some seventy-five or eighty men, who worked as machinists at the Northern Pacific shops went on a strike. So smoothly have things been apparently running at the shops that no one had the slightest idea that there was any trouble.

The men walked out at 9:30 o'clock without creating any disturbance or raising any excitement and up to the hour of going to press there was no probability of the matter being settled.

Officers of North Star Union, No. 197, of the International Ass'n. of Machinists, stated this morning that their grievances had been laid before Master Mechanic Bean over a week ago and it was not until this morning that that official gave out his ultimatum. It seems that the difficulty has arisen over the advancement of what is known as a "handy" from a drill machine to a turret lathe, a position which the regular machinists claim cannot be rightfully held except by a full fledged machinist. The man who was advanced was Edward Leach. He has worked in the shops for a number of years but drew only the salary of a "handy" which was \$1.65 a day, while the regular machinists receive \$3 a day.

A committee called on Mr. Bean, so the machinists who are out state, about a week ago and asked that Leach be put back to his old job or that he be given a machinists pay. They state that Mr. Bean promised to take the matter up and give his decision soon.

The men feel, so they state, as though they must do something to protect their interests; that the salary which they receive is a fixed price all over the country. They claim that the particular machine which Leach went to work on belongs to a machinist who is full-fledged in every respect.

It is said there are in the neighborhood of eighty-five of them and of this number there are sixty who are union men, the balance being non-union men.

The men want it stated that this trouble had nothing to do with that of last fall when two men were let out by Master Mechanic Bean.

Master Mechanic Bean was seen by a representative of THE DISPATCH this afternoon and he referred to the matter very methodically. He states that the committee waited on him, but that no demand was made that Leach be given higher wages but that he be removed from the machine in question, and that all machines operated by "handy" men be given to machinists hereafter. Mr. Bean, in view of the fact that this machine had heretofore been worked by "handy" men, thought best to refer the request of the men to the general superintendent which he did. The matter was referred by the head officers to Supt. of Motive Power Lovell and he wrote Mr. Bean that the company would at all times reserve the right to man their machines and ordered that the request be not granted. There was no alternative for Mr. Bean but to refuse the demand of the machinists after receiving the letter from Mr. Lovell.

The committee that called on Master Mechanic Bean has decided to go to St. Paul to interview Supt. of Motive Power Lovell. They will go down Sunday night.

LOOKING FOR NEW TIMBER.

Loggers Looking Forward to the Opening
of the Reservation with Considerable Expectancy.

Minnesota loggers are looking forward to the opening of the timber lands on the Indian reservation that are expected to be open by next fall should there be no obstruction to the Morris bill, which has been favorably reported on by the house committee, says the Duluth Herald. A prominent Minnesota lumberman who was in the city yesterday said:

"Everything now seems to point to the placing on the market next fall of a large amount of timber that has hitherto been where it could not be touched. Not only that, but a large area of agricultural and cut-over lands, after the timber is removed will be open for settlement if nothing comes up to hinder the Morris bill. I believe the outcome will be one of the best things that has ever happened in the Northern part of this state for the general benefit it will be to Minnesota interests.

"There has been some excellent agricultural lands and some good timber tied up in the Indian reservations for a long time, and it has delayed the development of Northern Minnesota. As I understand the purpose of the bill, it is not intended to provide a way for the cutting of all that is to be sold at once, but assurance is given to the lumbermen who have invested thousands of dollars that they will be able to get pine timber in the future when they have cut their present holdings.

"Of course there have been objections and much has been said in favor of the bill. Some amendments have been made and accepted by the author. I do not believe that all were exactly to his liking, but they certainly were not very objectionable. To me the most acceptable feature of the new law will be the wiping out of all possibility to keep in vogue the old method of cutting dead and down timber and which

methods have always been the source of trouble.

"Briefly, the Indians are to be taken care of by allotments which the secretary will complete before the agricultural lands are opened to settlement. One amendment provides that the titles of islands in Leech and Cass lakes and certain peninsulas shall remain with the Indians, under the control of the secretary of the interior. I believe there are reasons why the amendment providing for the sale of timber on the stump instead of the bank scale should not have been accepted by the committee. There are also objections from lumber interests to the amendment providing for sealed bids for timber. The lumbermen would have been better satisfied, generally, to have the timber sold at auction. The publicity of open sales would tend to an avoidance of much of the trouble usually arising over the sale of Indian timber.

"If the Morris bill passes, and I can see no good reason why it should not, there is a possibility that the agricultural lands will be opened by next fall and some of the timber could be put on the market for logging operations next winter. According to provisions of the bill the timber must be advertised for six months preceding the date of sale. General satisfaction, so far as I can learn is expressed by the citizens of Walker, Cass Lake and northern Minnesota over the favorable report of the bill. The people that have been in favor of large park reservations do not get all they ask for, but they get enough concessions to provide for the preservation of large tracts of forest and the scientific logging of other large tracts in which the mature timber only will be cut."

"THE ELEVENTH HOUR" TONIGHT

The offering at the Brainerd Opera House tonight will be Lincoln J. Carter's latest success "The Eleventh Hour," a comedy drama in five acts dealing with types of character that we come in contact with in every day life. The first act is an old mill in De Kalb county, Ill., and is said to be very realistic. The third act is a block house tower of the Chicago and North-Western R. R.

Few people traveling understand this all important part of railroading. From this tower the lives of hundreds of people depend. Mr. Carter has given a very true representation of this scene. "FORGET ME NOT."

Rose Coghlan will shortly be seen here in her well-known and much admired impersonation of Stephanie Marquise de Mohrivar in Herman Merivale's great play "Forget Me Not." Miss Coghlan is scoring an unequivocal success in this season's tour, which signalizes her first appearance in "Rose Coghlan" territory since the death of her brother Charles, whose handsome stage presence and clever acting is surpassed by the luxuriant beauty, superb costumes and strong emotional acting of his sister whom nature has endowed with uncommonly strong attributes in ability, power, beauty and womanly charm. Wednesday, April 23, is the date.

AL. FIELDS' MINSTRELS.

The great Al. Fields' Minstrels are headed for this territory and arrangements have been about completed with Manager Walker for an appearance at the Brainerd opera house.

"WAY DOWN EAST."

There is a possibility of this production being put on at the Brainerd opera house ere long. It is one of the most popular attractions of its kind now on the road.

STETSON'S "UNCLE TOM."

Just because it is "Uncle Tom's Cabin" it is no sign that it is weather worn. Stetson's "Uncle Tom" show is a mammoth production. Negotiations are now pending for its appearance at the Brainerd opera house.

HOWARD KYLE.

Howard Kyle in "Nathan Hale" is an offering that will be presented at the Brainerd opera house in the near future.

ON THE DIAMOND.

There will be a practice game of the base ball players of the city tomorrow afternoon near the road bridge across the Mississippi. It is expected that all the old-time favorites will don their suits and get in the game for the first time this season.

Little Falls wants a game with the locals next Sunday but it has not been decided whether it can be played.

Manager Egan, of the St. Cloud team, is working his men out and expects to give the Granite City some great base ball this year.

Doty will pitch for Little Falls again this year. He is a favorite with fans in that city.

The Brainerd high school team left for Staples this afternoon to play a game with the high school team of that city.

Manager Van Praagh, of the Duluth team, has signed all his men and will have a strong team in the field. Lambert and Shepperd will be in the game this year and they are a swift duo.

Is Gladly Extended by a Brainerd Citizen.

There are many enthusiastic citizens in Brainerd prepared to tell their experience for the public good. Testimony from such a source is the best of evidence and will prove a "helping hand" to scores of readers. Read the following statement:

Mrs. Moses Derocher, of 127, Seventh street south, says: "Low down in the small part of my back there was a pain very distressing, by spells becoming much worse and causing me discomfort, to say the least. My husband bought me a box of Doan's Kidney Pills at the nearest drug store and I started taking them. The medicines which I had used failed to help me, but I can truthfully bear witness that Doan's Kidney Pills relieved my backache entirely, and corrected a disorder of the kidneys which accompanied the backache."

Sold for 50 cents a box, at the McFadden Drug Co., H. P. Dunn & Co., and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

"FORGET ME NOT."

Rose Coghlan will shortly be seen here in her well-known and much admired impersonation of Stephanie Marquise de Mohrivar in Herman Merivale's great play "Forget Me Not." Miss Coghlan is scoring an unequivocal success in this season's tour, which signalizes her first appearance in "Rose Coghlan" territory since the death of her brother Charles, whose handsome stage presence and clever acting is surpassed by the luxuriant beauty, superb costumes and strong emotional acting of his sister whom nature has endowed with uncommonly strong attributes in ability, power, beauty and womanly charm. Wednesday, April 23, is the date.

AL. FIELDS' MINSTRELS.

The great Al. Fields' Minstrels are headed for this territory and arrangements have been about completed with Manager Walker for an appearance at the Brainerd opera house.

"WAY DOWN EAST."

There is a possibility of this production being put on at the Brainerd opera house ere long. It is one of the most popular attractions of its kind now on the road.

STETSON'S "UNCLE TOM."

Just because it is "Uncle Tom's Cabin" it is no sign that it is weather worn. Stetson's "Uncle Tom" show is a mammoth production. Negotiations are now pending for its appearance at the Brainerd opera house.

HOWARD KYLE.

Howard Kyle in "Nathan Hale" is an offering that will be presented at the Brainerd opera house in the near future.

ON THE DIAMOND.

There will be a practice game of the base ball players of the city tomorrow afternoon near the road bridge across the Mississippi. It is expected that all the old-time favorites will don their suits and get in the game for the first time this season.

Little Falls wants a game with the locals next Sunday but it has not been decided whether it can be played.

Manager Egan, of the St. Cloud team, is working his men out and expects to give the Granite City some great base ball this year.

Doty will pitch for Little Falls again this year. He is a favorite with fans in that city.

The Brainerd high school team left for Staples this afternoon to play a game with the high school team of that city.

Manager Van Praagh, of the Duluth team, has signed all his men and will have a strong team in the field. Lambert and Shepperd will be in the game this year and they are a swift duo.

GROGER ARNOLD SAYS:

"When Spring comes the hurry season is on and you'll want a trading place where you've confidence in the prices; where you'll feel that no advantage will be taken. One hasn't the time to give so much attention to these matters and they naturally prefer a secure, satisfactory place. We are unusually well stocked, in excellent condition to meet your needs and no matter the item you order here, the price is always guaranteed—THE LOWEST—or you are privileged to return the purchase."

"A HELPING HAND"

Is Gladly Extended by a Brainerd Citizen.

There are many enthusiastic citizens in Brainerd prepared to tell their experience for the public good. Testimony from such a source is the best of evidence and will prove a "helping hand" to scores of readers. Read the following statement:

Mrs. Moses Derocher, of 127, Seventh street south, says: "Low down in the small part of my back there was a pain very distressing, by spells becoming much worse and causing me discomfort, to say the least. My husband bought me a box of Doan's Kidney Pills at the nearest drug store and I started taking them. The medicines which I had used failed to help me, but I can truthfully bear witness that Doan's Kidney Pills relieved my backache entirely, and corrected a disorder of the kidneys which accompanied the backache."

Sold for 50 cents a box, at the McFadden Drug Co., H. P. Dunn & Co., and all druggists. Foster-Milburn Co., Buffalo, N. Y., sole agents for the U. S.

Remember the name, Doan's, and take no substitute.
